

Copes Corners Park Committee
Meeting Minutes
18 September, 2018

Present: Scott Wilson; Scot Lueck; Michele Farwell

No quorum, no recommendations to the Board

Meeting commenced at 7:10 p.m.

General update on park issues: picnic tables; recent flooding; bonfire; website changes; meeting schedule; updates on all three DASNY projects; park showers

New business:

- fall clean-up on 20 October - routine clean-up work will need to be done; rather than put out a general call for volunteers, we will try to ask individuals personally this year
- letter to park patrons - committee reviewed a letter to this season's park patrons and suggestions for minor changes were made
- 2019 budget - reviewed tentative budget with final budget to be finalized by Scot and Supervisor Giuda
- general discussion on early plans for 2019 Spring Fest - person in charge overall will not be Scot
- possible changes to annual fall bonfire event
- need for capital improvement line on park budget - since the Town took over the park we have shown that it can be operated with expenses approximately equaling revenue each year - that means that the Town essentially gets a beautiful park for the public to enjoy at no cost to the Town - however, if improvements are to be made, an amount might be set aside each year for capital improvements to the park

Next meeting to be 13 November - change is due to change in Town Board meeting schedule

Unofficial recommendation to Board would be to purchase eight more picnic tables in addition to the two samples which have already been purchased
